DETAILED ACTION

1. Claims 8-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in the reply filed on 9-22-04.
2. It is requested that applicant cancel non-elected claims 8-14 in response to this action to facilitate the issue process if the application is ultimately allowed.
3. The drawings filed 10-20-03 are objected to and new corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because they are informal (i.e. rough hand written labels etc.). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "56" has been used to designate both a diameter and a barb. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required

Art Unit: 3612

corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

6. The disclosure is objected to because of the following informalities: on page 9 – line 3, "42A" should be –40A–.

Appropriate correction is required.

7. Claim 7 is objected to because of the following informalities: "the retention" in line 1 should be replaced with –retention—for added clarity. Additionally, "said attachment extension" in the last line should be replaced with –a respective one of said attachment extensions—for added clarity. Appropriate correction is required.

8. This application is in condition for allowance except for the following formal matters:

See the objections in paragraphs 3, 4, 5, 6, and 7 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 3612

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

9. Claims 1-6 are allowed. Claim 7 is objected to for the minor informalities noted above but is otherwise allowable.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note at least Summers teaches an elastic web-like cargo net.
